

System and Unit Test Report

Product: Digital Cookbook, Team: "Too many cooks", November 25th 2019

Sprint 1:

User Stories:

A1. As a user, I want to be able to pick a category of recipe:

Scenario 1(Covers user story A1):

1. Start the Cookbook app
2. User should see a grid of buttons for the categories of recipes with labels and icons, it may take a moment for them to load from the database.

Sprint 2:

User Stories:

A2. As a user, I want to see a list of recipes when I click on categories, so that I can see what options I have to cook

B2. As a user, I want access to a large selection of recipes available online, so that I have many choices

Scenario 2(Covers user stories A2 & B2):

1. Start the Cookbook app
2. Select a category
3. User should see a list of recipes loaded from the database with 25-100 available depending on the category.

Sprint 3:

User Stories:

A3. As a user, I want the list of recipes to be organized and show a picture of the food item

B3. As a user, I want to be able to control the recipes page without touching my phone so that I don't get it dirty

C3. As a user, I want the recipes page to show the information I need to create the dish, so that I know what I need to do

Scenario 3(Covers user story A3 & C3):

1. Start the Cookbook app
2. Select a category
3. User should see a list of recipes with an image for each recipe, the list should be in alphabetical order
4. Select a recipe
5. User should see a list of ingredients for the chosen recipe
6. Tap on the ingredients page
7. User should see a list of steps for the chosen recipe

Scenario 4(Covers user story B3):

1. Start the Cookbook app
2. Select a category
3. Select a recipe with more than one step
4. Tap on the ingredients page
5. Tap the speaker icon
6. The first step should be read out loud by text to speech
7. Move the device
8. The second step should be read out loud by text to speech

Sprint 4:

User Stories:

- A4. As a user, I want to be able to add recipes to my favorites list for easy access later
- B4. As a user, I want the app to be visually appealing and coherent

Scenario 5(Covers user story A4):

1. Start the Cookbook app
2. Select a category
3. Select a recipe
4. Tap the favorites button
5. Tap the back button twice
6. Select the favorites category
7. The user should see the favorite recipe displayed

Scenario 6(Covers user story B4):

1. Start the Cookbook app
2. Select a category
3. Select a recipe
4. The user should see that the text, icons and spacing are all cohesive and that the text and images effectively scale to fill the screen across the pages navigated.
