

Sprint 2 Plan

Product: Digital Cookbook

Team: "Too many cooks"

Sprint completion date: November 3rd, 2019

Version: 1.0

Revision date: October 25th, 2019

Goals:

Create a basic user interface that allows the user to browse recipes and create categories.

Task listings(User Stories):

As a user, I want to see a list of recipes when I click on categories, so that I can see what options I have to cook(4)

- Link from Category to Recipe List Activity (2)
- Favorites list(2)
- Link to categories database(2)

Total for user story 1:

As a user, I want the recipes page to show the information I need to create the dish, so that I know what I need to do(4):

- Recipe page shows you ingredients, procedure, and nutritional facts (4)
- Animation to flip between recipe ingredients and steps(2)

Total for user story 2:

As a user, I want access to a large selection of recipes available online, so that I have many choices(5):

- Scrape web data from copyright free recipes(3)
- Parse data and add to database(4)

Total for user story 3:

Task listings(Learning/Infrastructure/Research not part of a user story):

-

Total:

Team roles:

Andrew Chow: Product owner, Developer

Damien: Scrum Master

Camden Christopherson: Developer

Darian Firestine: Developer

Michael Nguyen: Developer

Initial task assignments:

Andrew Chow: Recipe Activity (2)

Camden Christopherson: Implement Firebase (5)

Darian Firestine: Scrape web data (3)

Michael Nguyen: Implement Firebase(5)

Damien: Populate cards with Ingredients, procedure, and nutritional facts (3)

Initial Burn up chart: A photo will be placed in the repository, it will also be in the lab.

Initial Scrum board: A screenshot will be placed in the repository, we are using Trello.

Scrum times:

Monday: online meeting, 9:00-9:30pm

Wednesday: 11:15-11:45am, TA meeting

Friday: 10:00am-12:00pm, Scrum meeting and group coding
