Sprint Report #3

Product: Digital Cookbook, Team: "Too many cooks", November 17th 2019

Actions to stop doing:
- The team should stop ignoring the style guides, inconsistencies in the code will cause future issues.

Actions to start doing:
- The team should better utilize automated unit testing in order to reduce the defect rates of the software project and spend less time manually testing.
- The team should be making more pull requests and commits, it will result in fewer time consuming merge conflicts.

Action to continue doing:
- The team should continue splitting user stories into very small and independent tasks. It makes it easier for developers to find work and enhances the visibility of work done.
- The team should continue using online collaboration and communication tools like google docs and discord to work together effectively.

Work completed(User stories):
- As a user, I want to be able to control the recipes page without touching my phone so that I don't get it dirty(6)
- As a user, I want the recipes page to show the information I need to create the dish, so that I know what I need to do(4)
- As a user, I want the list of recipes to be organized and show a picture of the food item(4)

Work not completed(User stories):
- None

Work complete(Infrastructure, learning and research):
- None

Work not complete(Infrastructure, learning and research):
- None

Work completion rate:
- User stories complete: 3
- Prior hours: 15
